

LARGE COMMERCIAL SERVICE RATE**APPLICABILITY**

Applicable to all large commercial customers and to customers not otherwise specifically provided for under any other rate schedule.

TERRITORY

All incorporated areas served by the Company, as listed in the Company's Rules of Service (Rate Schedule Number QSR-TGS), Section 1.1.

COST OF SERVICE RATE

During each monthly billing period, the Cost of Service Rate shall be comprised of:

A customer charge per meter per month of \$150.00 plus

All Ccf metered @14.65 psi* during the monthly billing period @ \$0.19348 per Ccf

*All customers will be billed at a Common Billing Pressure of 14.65 psi, but not all customers receive service at the pressure base of 14.65 psi. To determine the pressure base and conversion factors for your location, refer to the Company's Rules of Service (Rate Schedule Number QSR-TGS), Section 13.1.

The Company will initially assign each customer to the rate schedule that is the most economical based on the annual normalized volume at the customer's service location for the prior twelve (12)-month period. An anticipated annual normalized usage level assessment will be conducted on each new service and for existing service that has less than twelve (12) months of service. The results of this assessment will decide the initial rate assignment:

Annual Normalized Volume Less than 3,001 Ccf	Small Commercial, Rate Schedule 20
Annual Normalized Volume 3,001 Ccf or Greater	Large Commercial, Rate Schedule 25

The Company will allow customers to elect service on a different rate schedule, provided that the customer must remain on the alternative rate schedule for a period of no less than twelve (12) months. Rate Schedule changes will be effective with the customer's next scheduled bill.

OTHER ADJUSTMENTS
