Rebate Requirements:

- Incomplete applications may not be honored.
- The rebate is for the purchase and installation of a new qualifying natural gas water heater in a new residential home.
- Work must be completed by a licensed contractor.
- All required city permits must be obtained or the installation will not be eligible for a rebate.
- The rebate applicant/builder is responsible for the full cost and installation of the new qualifying natural gas water heater.
- **For Solar Water Heater with Natural Gas Backup:**
 - » Solar collectors must be installed to support a new or existing natural gas appliance such as a boiler, storage, tankless or pool heating system. Solar appliances that do not work in conjunction with a natural gas appliance do not qualify.
 - » Only active systems with panels (or collectors) that are certified OG-100 by the Solar Rating Certification Corporation (SRCC) qualify for this rebate.
